

The Explorer Safari Collection

SAFARI JOURNEYS

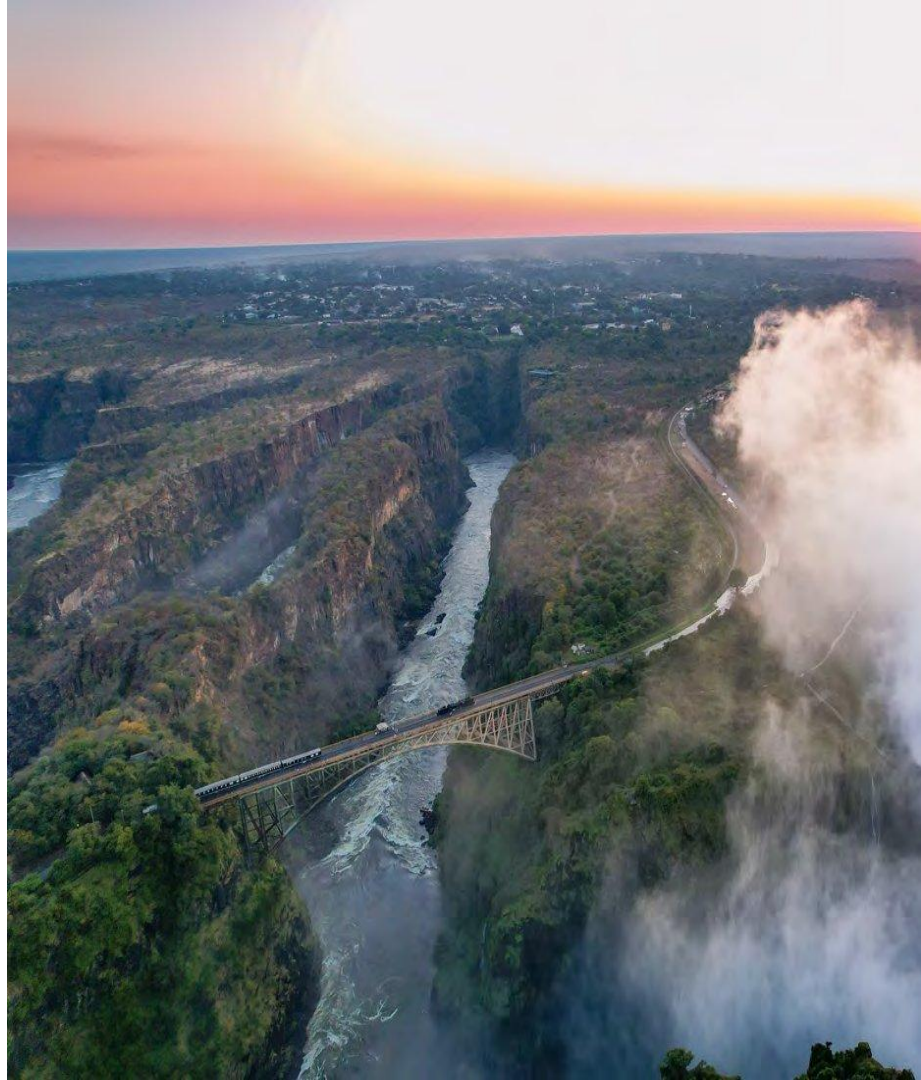

A selection of extraordinary journeys throughout Southern Africa
Where the smoke thunders, the cities bustle, and wildlife roams free.

A CURATED COLLECTION

A group of journeys, each one a different way into the wild.

Southern Africa does not offer a single story. It offers a hundred, depending on where the camp sits, which river bends near it, what moves through the grass at dusk.

The Explorer Collection gathers some of these stories into easy to book journeys — each one built around a particular corner of the continent worth knowing well. Choose the landscape that calls to you or let the differences between them be the reason to return.

INTO THE WILD

Explorer Safaris

Flexible Dates, Fixed Standards

Some of the finest moments on safari happen over a fire, long after the game drive has ended — when strangers become fellow travellers, and fellow travellers become friends.

There's no fixed calendar to work around. You have the freedom to travel when the season is right — without sacrificing an ounce of the craft and curation that defines every Bushtracks journey. The itinerary is suggested, the quality is guaranteed, and the only variable is the wild itself.
